July 2014

ECC Graduation

Graduation marks the start of many new adventures and the end of several years of exciting experiences. Please join this year's event starting at 11:00am at the Red Cliff Early Childhood Center on Thursday, July 17th. We ask that Head Start Graduates arrive no later than 10:45 in their classrooms to get ready. This year's graduation includes 20 Head Start children moving onto kindergarten; three home base children, eight children from the Makwa room and five children from the Esiban room who will be moving into Head Start! A special feast to follow the 11:00 ceremony. This event is open to the community—we encourage you to come see the graduates!

End of the Year Picnic!!

Summer is here and our annual ECC All-School End of the Year Picnic is going to mark one of our final celebrations. The picnic will be on Friday, July 11, 2014 from 10:00 am to Noon @ the Bayfield Coast Guard Park located in downtown Bayfield.

Hope to see your family there!!

Amber-237
Gena-236
We are getting so big, this is our last month for us to be “Waabooz” soon we will be “Big Amik”. In the Amik room we will be sleeping on maps, having circle time, doing more art work, and doing more and more big kid things. The rest of this month we will be enjoying the outdoors as much as possible having as much fun as possible. If it ever warms up we plan to have a lot of water play to so remember that extra change of clothes. We know with the summer a lot of the families will be having vacations and summer fun and that’s great, just remember when the children come in later 8:30 a.m. breakfast is being served and they expect to go outside to play after eating so please try and get them here before 8:30 so it does not throw our schedule off or make sure they have breakfast before coming in. Miigwech we have really enjoyed you and your children and to say Miigwech for entrusting us with the care of your children. Miigwech for being so understanding and so easy to communicate with. Your all are great...
Upcoming events:

- Raspberry Language Camp @ Raspberry July 7th - 10th, 2014
- End of the year picnic is July 11, 2014
- Last day of school is July 16, 2014.
- Graduation for the big kids is July 17, 2014.
- Summer gathering is 22, 23, 24, of July

Mino-Dibishkaa-Loyal July 23, and Tim will also be two in August.

Have a great summer and can’t wait to be in the Makwa room!

Sheena and Theresa
Well we are into the last month of the school year! Our mighty Makwa’s will be moving into Head Start!! So for the last month of school, we will be learning about the farm. We will also be playing outdoors and getting wet. Please make sure that your child has at least one extra pair of clothes that he or she can change into.

Reminder: If you haven’t had your last home-visit please schedule one right away. For those of you that have, Miigwech!

Minodibishkaan:
Charlotte: 7/6
Robert: 7/20

End of Year Picnic:
July 11th

Language Camp:
The week of July 7th

Last day of Class:
July 16th

Summer Gathering:
July 22- July 24th

Opening Ceremony:
September 2

1st Day of School:
September 3

Miigwech for sharing your child with us. We will be sad that they are leaving us, but know that they will be onto bigger and better things! Miigwech Ms. Jamie and Ms. Caitlin
End of the Year

We are able to get outside a lot more but still would like the sun and warmer days to stick around for awhile!

We have learned about bugs and insects these last few weeks. Now we are at the end of the school year and the children are now looking forward to spending time with their families during the summer months. We had such a great year and will miss the children that are heading into head start and look forward the children that will return this fall.

EVENTS...

Ojibwe Language Camp at Raspberry is the week of July 7th.

July 11th: All school End of the Year picnic

Last day of school: Wed. July 16th

ECC Graduation July 17th

July 22-24: Summer Gathering

ECC CLOSED:
July 28– Sept 3

September 2nd is Open Ceremony.
1st day of school: September 3rd
Mashkodebizhiki Class

The end of the year is here and Summer break is right around the corner! Thank you to all of the parents for sharing your awesome children with us. It has been quite an exciting year full of learning, socializing and fun times. To those going on to kindergarten, we say good luck and have a blast. We know you will do great and will continue on your learning journey. To those returning, we are excited to share another year with you and hope that you come back ready to have more fun. To those joining our room, we look forward to getting to know you, learning with you and learning from you.

A few reminders...

* the last day of school is Wednesday, July 16th. We will be returning to school on Wednesday, September 3rd. Enjoy the break!

* Graduation begins at 11:00 on July 17th. Only graduates will be recognized but everyone is invited. Please have graduates in our classroom no later than 10:45 for caps and gowns and lining up.

* returning students— please remember to turn in your fall enrollment packet. We will be contacting you in August to schedule a fall home visit.

Thank you to everyone for helping us have a successful and adventurous year.

Ms.J and Ms. Jenn

(Middle of the Year Moon)

Happy July 4th

This school year has flew by! We would like to thank each and every one of our parents for sharing their children with us this school year and allowing us to be a part of their lives. We have enjoyed teaching and learning from the children. July is going to fly by and we have so many fun things packed into the little time we have left. We have some field trips coming up so watch for flyers. Our last day of school is Wednesday, July 16th.

- Language table will continue on Thursday nights from 4:30-7 so please join us here if you get a chance.
- The all-school end of the year picnic will be held on Friday, July 11th. Watch for flyers to come regarding location and times.
- Ojibwe language camp at Raspberry camp ground July 7th-10th. Lots of great people, activities, food and language to keep you busy!
- Graduation will be Thursday, July 17th starting at 11am. Please have your graduate in the classroom by 10:45 so we can dress them in their gown and line them up.

Please continue to have a routine with your child throughout the summer break. Visit the library with your child, they will love it! Have a safe and fun summer and we will see you on September 2nd for our opening ceremony or September 3rd for the first day of school!

Miigwech!!!!
~Miss Alicia and Miss Linda
This month our class will be learning about the following and celebrating 4 of July:

**Science:** Eggs to chicken, Bugs and Insects

**Number:** 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20

**Alphabets:** A to Z

**Ojibwe Language:**

Animals, colors and number

**Fine Motor:** Cutting, tearing and writing

**Gross Motor:** Kicking, Tossing and catching

**Second Steps:**

Joining In Play and Inviting another to Play.

Talking about touching and Being Safe.

Ms. Patsy and Ms. Diane
Friendly Reminders to ECC Families

• Please call when your child is absent or going to be late to school. We expect all children to be to school no later than 9am so they can engage in quality learning time with their teachers and peers.

• If your child will be returning to the ECC in September 2014 please ensure that you have completed their annual paperwork for their enrollment. Stop in anytime and see Gina LaGrew to see what you may have to still complete or call 779-5030 ext 252 for more info.

• Summer Gathering at ECC is July 22\textsuperscript{nd}-24\textsuperscript{th} from 9am-2pm daily. Come enjoy some cultural activities and amazing time with your child and family.

• Please continue teaching and engaging your child in a routine over the summer break from school. 😊
ATTENTION: ECC Kids and PARENTS:

GRADUATION IS FAST APPROACHING

Summer time is here.

A few months to play, swim, camp, vacation, picnic and visit with family and friends. So many things to do in a few weeks and before you know it.... Fall is in the air.

The new school year will come quicker than we know. And that’s the reason why I am sending this reminder to have your child’s Well Child Exams, Immunizations, and Dental Visit taken care of before the 2014-15 School year. As you well know this is a part of our Enrollment Packet and one of the Performance Standards. If I can be of any help or have questions about your child’s health information please call me.

Enjoy the Warm Summer days.
Patt Kenote-DePerry

PRESERVING THE HARVEST

Food Preservation Classes

These hands-on workshops are part of The Growing Season series of Food Preparation Classes from Bayfield County UW-Extension.

Tuesday, July 22 - Water Bath Basics
Water bath canning is one of the simplest food preservation methods. With tested recipes, use it to preserve many fruits, jams, jellies and even pickled veggies. We'll practice this method to make and preserve:
- Blueberry Jam
- Pickled Dilly Beans

Wednesday, August 20 - Water Bath & Pressure Canning: What's the difference?
We'll learn which of these two methods is the safe choice for preserving different foods. We'll demonstrate both methods as we make and can:
- Festive Salsa
- Roasted Peppers

Wednesday, September 17 - Frozen Assets: Using your Freezer for Make Ahead Meals
Use your freezer to preserve food and make meal time easier. We'll practice with recipes from the Local Foods Cookbook created through the Farm to School Grant.

Tuesday, November 18 - Get Ready for Deer Season: Canning Meat & Making Jerky
Learn to preserve beef, venison and other meats safely.

All classes include take-home samples.

All classes are held at Washburn High School from 5:30 -8:00pm.
$10 per session: covers equipment, produce, and UW-Extension food preservation bulletins. Locally grown or harvested foods used when feasible.

Registration required. Call UW-Extension: 715-373-6104; ext. 0. Registration and payment required a week in advance. Class size limited. Register early!
Car Seat Clinic

Wednesday, July 23rd
9am-12:00pm
@ ECC Parking Lot

Please contact Jenny if you would like to make an appointment at 779-5030 ext 257

Walk/Drive-Ins will be accepted but free seats will be limited to what we have on hand.

Car Seat Checks completed for anyone that shows up!! It is most valuable if the child is with you for the seat check. Miigwech!!!
Bayfield educator to receive national recognition with the 2015 California Casualty Award for Teaching Excellence

WASHINGTON, DC (June 23, 2014) - Richard Erickson, Bayfield High School science and alternative education teacher in Bayfield, Wisconsin, will receive the 2015 California Casualty Award for Teaching Excellence, one of public education’s most prestigious awards.

Erickson is among 39 public educators who will be honored at the NEA Foundation’s Salute to Excellence in Education Gala to be held in Washington, DC on February 13, 2015. One of public education’s most anticipated events, the gala attracts more than 850 of the nation’s leaders from public education, philanthropy, and the private sector.

“We give these awards annually to honor and promote excellence in education and to elevate the profession. Educators like these are critical to their students’ academic success, and they deserve national recognition,” said Harriet Sanford, President and CEO of the NEA Foundation. “We are thrilled that California Casualty has joined us again this year to pay tribute to educators who are making such a difference in the lives of students in classrooms across the country.”

“Educating our youth is so critically important. California Casualty is proud to partner with the NEA Foundation to pause and celebrate excellence in teaching,” said Beau Brown, Chairman and CEO of California Casualty.

The educators were nominated by their National Education Association state affiliates. Each educator’s school will receive a $650 award.

From the 39 state awardees, five finalists will be selected to receive $10,000 cash awards. At the conclusion of the Washington, DC gala, one finalist will be named the nation’s top educator and receive an additional $25,000. The NEA Foundation and the National Education Association jointly present the awards.

About The NEA Foundation
The NEA Foundation is a public charity supported by contributions from educators’ dues, corporate sponsors, and others who support public education initiatives. We partner with education unions, districts, and communities to create powerful, sustainable improvements in teaching and learning. Visit neafoundation.org for more information. Find us on Facebook and Twitter, and visit our blog.
OUR SUMMER SCHEDULE

7:00 – Wake up and read books
7:30 – Breakfast
8:00-8:30 – Clean up from breakfast. Get dressed/brush teeth/tidy bedrooms
8:30-9:00 – Learning center with craft, activity or coloring sheets
9:00-9:30 – Individual play
9:30-10:30 – Outside play
10:30 – Snack outside
10:45-11:00 – Clean up snack and outside toys
11:00-11:30 – Family chores
11:30-12:00 – Watch show/make lunch
12:00 – Lunch
12:30-1:30 – Lunch clean up/reading/low-key play
1:30-3:30 – Naps/quiet time
3:30-4:00 – Snack/show/dinner prep
4:00-5:00 – music/crafts/play
5:00-5:30 – dinner prep/set table
5:30 – Dinner
6:00 – Dinner clean up
6:15-7:00 – Family fun…walk/game/etc
7:00-7:15 – 15 minute clean-up
7:15 – Baths/pj’s/brush teeth
7:30 – Devotions and prayers
8:00 – Goodnight

Focus On...

- Cleaning as we go
- Better meal planning
- Weekly field trip/special day
- Doing more as a family - the work of taking care of our home and the fun of being together

Kindergarten Readiness Games

Games for Soon to Be Kindergarteners to Practice Skills Necessary for School

AUGUST 27, 2013

As summer winds to an end, kindergarten parents everywhere are getting their children ready for their first day of school. These final days of August are full of... shopping trips for school supplies and first day of clothes, helping kids remember their teacher's name, the alphabet and counting, reading and much more.

You may be attending welcome events at your child's new school. Or you may have found a local parent group that arranges playdates at school for incoming kindergarteners. Take advantage of these so your kids can get to know their new classmates and practice getting along.

You can use these times to play games that develop skills necessary for kindergarten. Whether enjoying a morning play session at home or participating in a playgroup, try introducing some of these games to develop skills for school.

- **Grocery Store.** Pick three to five colored objects. Call out “I am going to the store to buy some... grapes!” or another food. Your child must run and touch the color the food matches.

- **Simon Says.** Children must follow any directions when it begins with “Simon says”, such as “Simon says touch your nose.” If the direction does not begin with “Simon says”, they do not need to follow the direction. The object is to listen carefully.

- **Hi My Name Is.** Everyone must walk around practicing introducing themselves with the following exchange. The first person says, “Hi, my name is ______.” The second person says, “Hi, my name is ______.” The first person says, “Nice to meet you.” The second person repeats this back. The first person says, “See you later.” The second person responds, “Bye!”

- **Going on a Picnic.** Practice letters and sounds by having each person take turns saying their name and one thing they will bring on a picnic that starts with the same letter as their first letter in their name.

- **Sequence Touch.** Teach listening and following directions by giving your child three things to touch in a particular order then return to you.

- **Zoo.** Give your child a letter. S/he must then walk around like an animal that starts with the same letter. When you say freeze, s/he then makes the sound of that animal.

- **Group Count.** Teach patience and counting by having a group of children take turns counting. They must count as high as they can, but may not go in a specific order. Every child remains silent unless they are saying a number. If two people say a number at the same time, the group must start back at 1.

"The brain is a use-dependent organ; we need to use it or lose it. Any unused brain cells will eventually wither away."

Your Child's Brain Power

According to the BRAINetwork (1999), a child is born with over 100 billion brain cells. The child will not grow any more cells and any unused brain cells will eventually wither away. As the child is exposed to thousands of sounds, smells, tastes, feelings, and visual information in the first ten years of its life, these brain cells connect with thousands of other brain cells which create over 500 trillion connections. BRAINetwork (1999) states that, "The outside world shapes the brain's architecture. The connections that do not become part of this structure perish. The outside world comes in through the senses—vision, hearing, smell, touch, taste—allowing the brain to create or modify existing connections which leads to learning. For example: the smell of the mother's skin (smell), the mother's voice (hearing), seeing a face or a brightly colored toy (vision), the feel of a hand gently caressing (touch), and taking milk (taste). And, as the child develops further, its gross movements will become more purposeful, as it sees something, reaches and manages to touch it, with the result that the synapses that lead to coordinated movement get stronger and more efficient."

These connections are the special building blocks of the brain, and a child's brain "...is more efficient than the world's fastest supercomputer. ...The brain is a use-dependent organ; we need to use it or lose it. ...What wires a child's brain is repeated experiences in which she is actively engaged. The brain becomes 'hard-wired' to respond along established pathways. Skills are developed and refined. ...Experience literally sculpts the brain. The brain changes it's architecture day by day, possibly minute by minute, reshaping itself to cope with experience. (BRAINetwork, 1999)"

During the first ten years of a child's life, the brain is its most "plastic". This refers to the ease with which the brain can change itself. It's a time when a child can continually learn new and wondrous things (Continued on page 2)
• early experiences set up the framework for emotional intelligence

Movement

• much early brain organization depends on exploring the world through movement
• movement anchors learning at any age
• coordinated movements stimulate hormones that increase brain growth
• develops gradually from large global movements to fine muscle control

Music

• piano lessons for preschoolers strengthened mathematical reasoning
• musicians who started playing before 7 had larger corpus collosums
• Mozart tapes have positive effect on premature babies
• math and verbal SAT scores higher in students who’ve studied music

The Brain’s Emotional Wiring

◊ Each time an infant’s feeling is mirrored back to her (attunement), the pathway in her brain for that emotion is reinforced.
◊ The brain uses the same pathways to generate and respond to an emotion.
◊ If an emotion is reciprocated, the electrical and chemical signals that produce it are reinforced and the emotion is strengthened.
◊ If emotions are repeatedly met with indifference or a clashing response, those emotional circuits may fail to strengthen or may, in extreme cases, be eliminated.
◊ If a young child repeatedly receives sensitive responses to all of her feelings she develops the ability to feel and express a full spectrum of emotions.

Six Common Auto Dangers for Children

You place your children's safety at the top of your priority list. You shopped for the safest car when you started a family. You read up on car seats for kids and figured out which one worked best for you and your family. You even took your car and car seat to a seat-checking station to let an expert check and approve of your handwork.

But did you know there are other dangers in and around your vehicle that could seriously harm or even kill your child?

The National Highway Traffic Safety Administration (NHTSA) has identified six common dangers that even the most careful parents can overlook, and some tips on how to avoid them.

<table>

<tr>
<td>Hyperthermia - Heatstroke</td>
<td>Seat Belt Entanglement</td>
</tr>
<tr>
<td>Power Windows</td>
<td>Trunk Entrapment</td>
</tr>
</tbody>
</table>

I. BACKOVER

Many children are killed or seriously injured in backover incidents. A backover incident typically occurs when a car coming out of a driveway or parking space backs over a child because the driver did not see him/her.

Prevention Tips

- Teach children not to play in or around cars.
- Supervise children carefully when in and around vehicles.
- Always walk around your vehicle and check the area around it before backing up.
- Be aware of small children - the smaller a child, the more likely it is you will not see them.
- Teach children to move away from a vehicle when a driver gets in it or if the car is started.
- Have children in the area stand to the side of the driveway or sidewalk so you can see them as you are backing out of a driveway or parking space.
- Make sure to look behind you while backing up slowly in case a child dashes behind your vehicle unexpectedly.
- Take extra care if you drive a large vehicle because they are likely to have bigger blind zones. Roll down your windows while backing out of your driveway or parking space so that you’ll be able to hear what is happening outside of your vehicle.
- Teach your children to keep their toys and bikes out of the driveway.
- Because kids can move unpredictably, you should actively check your mirrors while backing up.
Many cars are equipped with detection devices like backup cameras or warning sounds, but they cannot take the place of you actively walking around your car to make sure your children are safely out of the way. Do not rely solely on these devices to detect what’s behind your vehicle.

2. HYPERTHERMIA - HEATSTROKE

Children die each year from heatstroke after being left alone in a vehicle.

You live by your daily routine and it helps you get things done. Be extra careful, though, if you have to change any part of that routine. This is more likely to happen when you, or a caregiver who helps with your children, forgets that a child is in the back seat. This can and does happen when you break a well-established routine.

Disasters Happen Quickly

At other times, you are on your way home and realize you need to stop in at the store and pick up one or two things for dinner. So, you leave your child unattended, thinking, “I’ll just run into the store for a minute.” Even cool temperatures in the 60s can cause the temperature rise well above 110 degrees Fahrenheit inside your car. The inside temperature can rise almost 20 degrees within the first 10 minutes.

Some children die in hot cars after climbing into an unlocked vehicle without an adult’s knowledge. Once in the vehicle, they may become confused by the door opening mechanism or trapped in the trunk, and unable to get out before heatstroke occurs.

Prevention Tips

- Never leave a child unattended in a vehicle.
- Do not let your children play in an unattended vehicle. Teach them that a vehicle is not a play area.
- Never leave infants or children in a parked vehicle, even if the windows are partially open.
- Make a habit of looking in the vehicle - front and back - before locking the door and walking away.
- If you are dropping your child off at childcare, and normally it's your spouse or partner who drops them off, have your spouse or partner call you to make sure the drop went according to plan.
- Ask your childcare provider to call you if your child does not show up for childcare.
- Do things to remind yourself that a child is in the vehicle, such as:
  - Writing yourself a note and putting the note where you will see it when you leave the vehicle;
  - Placing your purse, briefcase or something else you need in the back seat so that you will have to check the back seat when you leave the vehicle; or
  - Keeping an object in the car seat, such as a stuffed toy. When the child is buckled in, place the object where the driver will notice it when he or she is leaving the vehicle.
- Always lock vehicle doors and trunks and keep keys out of children's reach. If a child is missing, check the vehicle first, including the trunk.
- If you see a child alone in a hot vehicle, call the police. If they are in distress due to heat, get them out as quickly as possible. Cool the child rapidly. Call 911 or your local emergency number immediately.
What You Need to Know Now

- Vehicles heat up quickly - even with a window rolled down two inches, if the outside temperature is in the low 80 degrees Fahrenheit, the temperature inside a vehicle can reach deadly levels in only 10 minutes.

- Children's bodies overheat easily, and infants and children under four years of age are among those at greatest risk for heat-related illness.

- Children's bodies absorb more heat on a hot day than an adult. Also, children are less able to lower their body heat by sweating. When a body cannot sweat enough, the body temperature rises rapidly.

- In fact, when left in a hot vehicle, a young child's body temperature may increase three to five times as fast as an adult. High body temperatures can cause permanent injury or even death.

Dangers of Extreme Heat

- Symptoms of heatstroke: warning signs vary but may include red, hot, and moist or dry skin; no sweating; a strong rapid pulse or a slow weak pulse; a throbbing headache; dizziness; nausea; confusion; or being grouchy or acting strangely.

- If you see a child alone in a hot vehicle, call the police. If they are in distress due to heat, get them out as quickly as possible. Cool the child rapidly. Call 911 or your local emergency number immediately.

3. POWER WINDOWS

Children can hurt themselves with power windows. Many kids are injured when a window closes on their finger, wrist, or hand. Some kids have been strangled by power windows.

Prevention Tips

- Never leave your children alone in a vehicle for any reason.

- Teach your children not to play with window switches.

- Teach your children not to stand on passenger door arm rests.

- Properly restrain your children in car seats or seat belts to prevent them from accidentally activating power windows.

- Lock and make sure your kids hands, feet, and head are clear of windows before raising the windows.

- Never leave the key in the ignition or in the "on" or "accessory" position when you walk away from your car.

- If available, activate the power window lock switch so that your children cannot play with the windows.

What You Need to Know Now

All new vehicles will have "pull to close" switches which, as their name indicates, require you to pull up on them to close the window. Older vehicles may have window switches that a child can accidentally step on or put weight on, easily causing a window to close.

Some vehicles have power windows that automatically reverse when an object (such as your child's arm or neck) is in the path of a closing window. Check both the individual vehicle rating pages on www.safercargov and your owner's manual to see if a vehicle is equipped with this safety technology.
4. VEHICLE ROLLAWAY

With the key in the ignition, automatic transmissions may be shifted "out of park" even if the vehicle's engine is off and the driver's foot is not on the brake. If you leave the key in the ignition and turned to the accessory mode (to listen to the radio, open/close the windows, etc.), your vehicle's automatic transmission may be shifted out of "Park" if you or a child moves the gear selector.

If you leave a child alone in a motor vehicle, whether the engine's running or not, it doesn't take long for a child to unintentionally set your car in motion.

Prevention Tips
- Teach children not to play in or around cars.
- Supervise children carefully when in and around vehicles.
- Keep vehicle locked when unattended.
- Never leave keys in the car.
- Engage your emergency brake every time you park.
- Verify whether or not your vehicle has a Brake Transmission Safety Interlock (BTSI). Read the owner's manual or check the NHTSA website to find BTSI-equipped vehicles.

What You Need to Know Now
- When the vehicle is set in motion, children may become scared and jump out of the vehicle only to be injured or run over. They can also be hurt inside the vehicle, especially if they are unbelted and the vehicle is in motion. Sometimes, the vehicle may end up running over someone else.
- Many vehicles today have a BTSI which is a safety technology intended to prevent children from accidentally putting a vehicle into gear.
- All vehicles with automatic transmission with a Park position manufactured for sale after September 1, 2010 must have BTSI.

5. SEAT BELT ENTANGLEMENT

A child within reach of a seat belt may become entangled if he or she pulls the seat belt all the way out and wraps the belt around the head, neck, or waist.

The majority of seat belts have a locking mechanism that is activated when the seat belt is pulled all the way out from the retractor. This feature is designed for child seat installation. In instances when the locking feature activates, the child may not be able to free him or herself.

This can happen if you do not properly restrain your child, for example, if you let the child lie down or sleep on the vehicle seat, instead of being properly restrained. Older children who are no longer in a child restraint system, can become entangled by pulling a seat belt all the way out of the retractor, or by playing with an unused seat belt.

If you used your vehicle's Lower Anchors and Tether for Children (LATCH) system to install the car seat, your child may be able to reach an unused belt.

Prevention Tips
- Do not let children play in or around cars.
- Never leave a child unattended in or around a vehicle.
Always ensure children are properly restrained.

Teach children that seat belts are not toys.

Be aware that some seat belts have a retractor that locks if pulled all the way out.

If a child has an unused seat belt within reach:

- Buckle unused seat belts. Pull the seat belt out all the way to the end without yanking. Then, feed the excess webbing back into the retractor.

- If a child seat is installed with LATCH, consider completing the steps above before you install the child seat. Always consult your child seat and vehicle owner's manual for installation instructions.

6. TRUNK ENTRAPMENT

Children are naturally curious and love to explore their surroundings. So, if you leave your kids unattended, in or near a vehicle, it won't be long before they are playing in it. Hide and seek can turn deadly if they get trapped in the trunk, where temperatures can rise very quickly, resulting in heatstroke or asphyxiation.

Prevention Tips

- Teach children not to play in or around cars. Teach them that vehicle trunks are for cargo, not for playing.
- Always supervise your children carefully when in and around vehicles.
- Check the trunk right away if your child is missing.
- Lock your car doors and trunk and be sure keys and remote entry devices are out of sight and reach of your kids.
- Keep the rear fold-down seats closed/locked to keep your children from climbing into the trunk from inside your car.

Retrofit Your Car

As of September 1, 2001, auto manufacturers were required to equip all new vehicle trunks with a 'glow in the dark' trunk release inside the trunk compartment. Show your kids how to use the release in case of an emergency.

If your car is older and does not have the 'glow in the dark' trunk release, ask your automobile dealership about getting your vehicle retrofitted with a trunk release mechanism.

What You Need to Know Now

- Younger children are more sensitive to heat than older children and adults, and are at greater risk for heatstroke.
- High temperature, humidity, and poor ventilation add up to the extremely dangerous environment of your vehicle's trunk.
- Even in cooler temperatures, your vehicle can heat up to dangerous temperatures very quickly. An outside temperature in the mid 60s can cause a vehicle's inside temperature to rise above 110 degrees Fahrenheit. The inside temperature of your car can rise almost 20 degrees Fahrenheit within the first 10 minutes.

FIREWORKS SAFETY TIPS

Leave Fireworks to the Professionals

- The best way to protect your family is to not use any fireworks at home. Instead, attend public fireworks displays and leave the lighting to the professionals.
- If you plan to use fireworks, make sure they are legal in your area.

Be Extra Careful With Sparklers

- Little arms are too short to hold sparklers, which can heat up to 1,200 degrees. How about this? Let your young children use glow sticks instead. They can be just as fun but they don’t burn at a temperature hot enough to melt glass.
- Closely supervise children around fireworks at all times.

Take Necessary Precautions

- Do not wear loose clothing while using fireworks.
- Never light fireworks indoors or near dry grass.
- Point fireworks away from homes, and keep away from brush, leaves and flammable substances.

Be Prepared for an Accident or Injury

- Stand several feet away from lit fireworks. If a device does not go off, do not stand over it to investigate it. Put it out with water and dispose of it.
- Always have a bucket of water and/or a fire extinguisher nearby. Know how to operate the fire extinguisher properly.
- If a child is injured by fireworks, immediately go to a doctor or hospital. If an eye injury occurs, don’t allow your child to touch or rub it, as this may cause even more damage.
VACANCY

POSITION: AmeriCorps Nutrition Education Member

LOCATION: School District of Bayfield

Program Details: Farm to School AmeriCorps Program, Wisconsin Department of Agriculture, Trade & Consumer Protection

Program Period: August 14, 2014 – September 15, 2015

JOB DESCRIPTION

POSITION: Medical Assistant

LOCATION: Red Cliff Community Health Center

THIS IS A FULL TIME NON EXEMPT POSITION

SALARY: $10-12 per hour depending upon experience

SUPERVISOR: Clinic Manager
Administrator – Health Center

JOB SUMMARY:
The medical assistant supports the role of the physician or other primary care provider in the care and treatment of individuals served by the Outpatient Clinic Program of the Red Cliff Community Health Center. This position is one of several support or ancillary personnel, who perform assigned duties in a collaborative manner.

DUTIES AND RESPONSIBILITIES:
1. Assist with daily preparation for scheduled patients to ensure maximum packing of visit and all needs are addressed:
   a. Utilize current computer software programs to identify patient needs.
   b. Complete various tools to assist in patient management.
2. Prepare patients to be seen by the primary provider:
   a. Escort patients from the waiting area to the exam room.
   b. Complete and record vital signs and patient characteristics per Clinic policy.
   c. Complete and record brief history, background data and assess situation.
   d. Instructs and prepares patient for physician visit.
   e. Enters information into electronic health record as appropriate.
   f. Informs physician or primary provider of patient’s presence in the exam room and of other pertinent information.
   g. Clean and refurbish exam rooms between patients in accord with prescribed clinic policy.
3. Responsible for assisting Nursing, Physicians and other providers in the provision of direct care to patients in the ambulatory setting.
   a. Provide safe, accurate and clinically competent care to patients as well as through telephone/lobby screening
   b. Carries out established techniques for administration of medications, vaccines and obtaining specimens.
   c. Assists provider with diagnostic procedures, examination, treatments and dressing changes. This may include surgical assisting.
   d. Safely and proficiently operates clinic and patient care equipment within level of expertise.
   e. Recognizes variations of normal and/or urgent problems and seeks appropriate assistance.
   f. Provides patient education material and information as directed.
   g. Completes assignments within legal limits of the certification of the State.
4. Effectively communicates with staff to provide information that contributes to effective operations.
   a. Observes, listens and is responsible to what others communicate.
   b. Clearly conveys information regarding patient status to Nursing and/or provider.
   c. Uses established channels of communication to express personal or work related needs, suggestions and/or concerns.

5. Assist Care Manager in patient care priorities:
   a. Coordination of referrals generated to outside Provider.
   b. Utilization of the Sunday schedule to make required follow up appointments.
   c. Complete targeted outreach with an emphasis on improving patient health outcomes.
   d. Initiate medical record request per policy for continuity of care.
   e. Initiate Contract Health Service and other prior authorizations as needed.

6. Maintain an appropriate inventory of clinic, treatment room, and laboratory supplies, forms, patient handouts, and routine equipment. Order replacement items according to Health Center policy to insure accurate inventory control and proper fiscal accounting.

7. Clean and prepare the treatment room and the nurses’ station on a daily basis or more often, as necessary. Clean and sterilize medical equipment.

8. Participate in quality assurance and other efforts that assure appropriate care and services.

9. Follow procedures established for universal precautions and sterile techniques.

10. Maintain strict confidentiality and safeguard the privacy of patients in common areas of the clinic.

11. Present a professional, caring image for the Health Center and its programs.
   a. Maintain a cooperative relationship with other Health Center staff and employees.
   b. Demonstrate tact, courtesy, and respect in communication and interaction with Health Center patients, visitors, and staff and with outside agencies and programs.
   c. Promote a working environment noted for effective cooperation and collaboration between programs, services, and co-workers.

12. Maintain a clean and safe physical environment. Alert administration and/or Health Center staff to problems and difficulties, as circumstances may warrant.

13. Advance job knowledge and skills through continuing education efforts with the approval of Health Center Administration.

14. Attend staff and other meetings, in-services, and other events as directed by supervisor.

15. Participate in the implementation of grants, contracts, or projects being carried out under the auspices of the Red Cliff Community Health Center and at the direction of the Administrator of the Health Center. These activities are to comply with the directives of Tribal and Health Center Administration and to fulfill the conditions and stipulations of the grant, contract, or project. The specific duties will reflect the individual grant, contract, or project and the concurrent needs and resources of the Health Center. These assignments will vary from time to time due the cyclical nature of these program efforts.

16. Perform other duties as assigned.

3. Maintain adequate stores of foodstuffs and supplies for use by the residential treatment program. Purchase replacement items according to health Department Policy to insure accurate inventory control and proper fiscal accounting. Oversee the proper storage of such items.
4. Maintain records, receipts, and other materials required by the AODA Program Director/Coordinator, the Administrator of the Health Center, the Health Board, the Tribal Council, funding sources, and certification bodies. Maintain proper and adequate documentation for all program expenditures.
5. Maintain the confidentiality of all client specific information and data in accord with federal and state guidelines and requirements.
6. Utilize the resources, materials, office supplies, equipment and physical plant purchased on behalf of or allocated for use by the Red Cliff AODA Treatment Program in accord with professional practice norms and Tribal Policy.
7. Participate in quality assurance measures conducted with the AODA Treatment Program.
8. Present a professional, caring image for the Health Center and its programs.
   a. Maintain a cooperative relationship with other Health Center staff and co-workers.
   b. Demonstrate tact, courtesy, and respect in communication and interaction with Health Center patients, visitors, and staff and with outside agencies and programs.
   c. Promote a working environment noted for effective cooperation and collaboration between programs, services, and co-workers.
9. Adhere to a professional code of conduct and applicable federal and state laws and regulations in the discharge of the assigned duties.
10. Attend staff and other meetings, in-services, and other events as specified by the immediate supervisor or Tribal administration.

11. Perform other job-related duties as directed by the immediate supervisor or Tribal Administration.

12. Maintain a clean and safe working environment.

SUPERVISORY AUTHORITY:

KNOWLEDGE:
1. Personal commitment to a drug and alcohol-free lifestyle consistent with the accept norms for abstinence and sobriety. If there is a personal history of alcohol and/or chemical dependency, a minimum of two years of absolute sobriety is required.
